

A photograph of a park path at dusk. The path is paved and leads into the distance, flanked by green grass and trees. Several ornate street lamps are lit, casting a warm glow. Benches are visible on the left side of the path.

**Have you seen
someone sleeping
rough in Thurrock?**
Here's how you can help.

**Sanctuary
Supported
Living**

**Street
Link**

Sanctuary Supported Living's Thurrock Homelessness Service provides outreach support to rough sleepers in the area.

Through the StreetLink website or telephone line, anyone concerned about a rough sleeper can alert Sanctuary Supported Living's outreach team, so they can deliver the necessary support.

How does Streetlink work?

- ▶ Visit www.streetlink.org.uk and click 'Take action now'
- ▶ Call 0300 500 0914

What information will I be asked for?

The more you can tell us, the better the chance of us finding the person in need. Please provide the following information where possible:

- ▶ A specific location for the rough sleeping site. You can do this by pinpointing a map location or by providing a written description.
- ▶ The time and date when you saw the rough sleeper at the location.
- ▶ Any information that will help us find them (gender, approximate age, what they look like, what they're wearing, if they have a contact number).

What happens when an alert is made?

Sanctuary Supported Living or Thurrock Council Homeless Team will receive an email notification with all the relevant details from StreetLink so that they can make contact with the rough sleeper when an alert is made.

If you request it, StreetLink can give you an update on what happened as a result of your alert.

For more information about our outreach service, or to support us by volunteering or donating food and clothing, please get in touch.
