CARE AND SUPPORT

We have extensive experience in supporting people with learning disabilities, encouraging them to develop their skills and live as independently as possible.

Our structured package of tailored support, based on the Life Star model, agrees a personalised support plan helping residents to identify their needs and aspirations. Their progress is regularly monitored and reviewed with the plan updated to reflect any changing needs. All support is designed to help residents achieve good emotional health and improve their wellbeing and quality of life. Our highly-trained staff provide a wide range of tailored support and assistance, including:

- Maintaining health, safety and security
- Managing finances (budgeting and benefits)
- Developing hobbies and interests
- Managing personal care, medication, physical and mental health needs
- Dealing with correspondence
- Cooking, cleaning and shopping
- Socialising, activities and community involvement
- Maintaining appropriate behaviour, good communication and positive relationships

Staff are on-site 24 hours a day and residents can opt for a personal assistive technology package, for additional confidence that support is always on-hand.
